Consolidated Statements of Financial Position	4
Consolidated Statements of Comprehensive Loss	5
Consolidated Statements of Changes in Shareholders' Equity	6
Consolidated Statements of Cash Flows	7
Notes to the Consolidated Financial Statements	8-42

## Independent Auditor's Report

To the Shareholders of Pacton Gold Inc.

### Opinion

We have audited the consolidated financial statements of Pacton Gold Inc. ("the Group"), which comprise the consolidated statements of financial position as at November 30, 2020 and November 30, 2019 and the consolidated statements of comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at November 30, 2020 and November 30, 2019, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards.

### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Material Uncertainty Related to Going Concern

We draw attention to Note 2 to the consolidated financial statements which describes the material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Other Information

Management is responsible for the other information. The other information comprises:

- Management's Discussion and Analysis

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained the other information prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

## **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are

responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Diana Huang.

(Expressed in Canadian Dollars)

---

## **1. NATURE OF OPERATIONS**

Pacton Gold Inc. (the “Company” or “Pacton”) was incorporated pursuant to the British Columbia *Business Corporations Act* on December 15, 2010. The address of the Company's corporate office and its principal place of business is 1680 – 200 Burrard Street, Vancouver, British Columbia, Canada, V6C 3L6. The Company's registered and records office is 400 – 725 Granville Street, Vancouver, British Columbia, Canada, V7Y 1G5. The Company operates in Canada and Australia. On July 17, 2012, the Company's stock was listed on the TSX Venture Exchange (“TSX-V”) trading under the symbol “NX”. On April 27, 2017, the Company changed its name to Pacton Gold Inc. and began trading under the symbol “PAC”. The Company's shares also trade on the OTC Exchange in the United States under the symbol “PACXF” and on the Frankfurt Stock Exchange under the symbol “2NKN”. The principal business of the Company is the identification, evaluation and acquisition of mineral properties, as well as exploration of mineral properties once acquired. The Company is an exploration stage company and is in the process of acquiring and exploring its mineral property interests.

On June 9, 2020, the Company consolidated its common shares on the basis of one new share for ten old shares. All share and per share amounts have been revised to reflect the consolidation.

## **2. GOING CONCERN**

These consolidated financial statements (the “financial statements”) have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company has incurred a loss during the year ended November 30, 2020 of \$6,533,485 (2019 - \$10,674,432) and as at November 30, 2020 has a deficit of \$32,367,786 (2019 - \$25,950,709), has limited resources, no sources of operating cash flow and no assurances that sufficient funding will be available to continue operations for an extended period of time. The Company is in the exploration stage, and accordingly, has not yet commenced revenue-producing operations.

In March 2020, there was a global outbreak of coronavirus (COVID-19). The actual and threatened spread of the virus globally has had a material adverse effect on the global economy and, specifically, the regional economies in which the Company operates. The pandemic could continue to have a negative impact on the stock market, including trading prices of the Company's shares and its ability to raise new capital. These factors, among others, could have a significant impact on the Company's operations.

These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

The application of the going concern concept is dependent upon the Company's ability to satisfy its liabilities as they become due and to obtain the necessary financing to complete the exploration and development of its mineral property interests, the attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interests. Management is actively engaged in the review and due diligence on opportunities of merit in the mining sector and is seeking to raise the necessary capital to meet its funding requirements. There can be no assurance that management's plan will be successful.

If the going concern assumption were not appropriate for these financial statements then adjustments may be necessary in the carrying values of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

### 3. BASIS OF PREPARATION

a) Statement of compliance

These financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board.

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on March 26, 2021.

b) Basis of measurement

These financial statements have been prepared under the historical cost basis, except for certain financial instruments, which are measured at fair value, as explained in the significant accounting policies (note 4). These financial statements have been prepared under the accrual basis of accounting, except for cash flow information.

c) Subsidiaries

These financial statements include all subsidiaries in the accounts of the Company for the periods presented. These subsidiaries are listed as follows:

<b>Subsidiary</b>	<b>Ownership November 30, 2020</b>	<b>Ownership November 30, 2019</b>	<b>Incorporated</b>	<b>Nature</b>
Pacton Pilbara Pty. Ltd. (“Pacton Pilbara”)	100%	100%	Australia	Mineral exploration
CTTR Gold Pty. Ltd. (“CTTR”)	Nil*	100%	Australia	Mineral exploration
Drummond East Pty. Ltd. (“Drummond East”)	100%	100%	Australia	Mineral exploration
Arrow (Pilbara) Pty. Ltd. (“Arrow Pilbara”)	100%	100%	Australia	Mineral exploration

\*CTTR was de-registered during the year ended November 30, 2020

Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the financial statements from the date that control commences until the date that control ceases. All significant intercompany transactions and balances have been eliminated.

### 4. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies have been applied consistently throughout by the Company for purposes of these financial statements.

a) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits with financial institutions and other short-term, highly liquid investments that are readily convertible to known amounts of cash and subject to an insignificant risk of change in value.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### b) Equipment

Equipment is stated at cost less accumulated depreciation and impairment losses. The residual value, useful life and depreciation method are evaluated every reporting period and changes to the residual value, estimated useful life or depreciation method resulting from such review are accounted for prospectively. Depreciation is provided for using the declining-balance method at the following rate per annum:

Furniture and equipment	20%
-------------------------	-----

#### c) Exploration and evaluation assets

##### *i) Exploration and evaluation expenditures*

Exploration and evaluation activities involve the search for minerals, the determination of technical feasibility and the assessment of commercial viability of an identified resource.

Costs incurred before the Company has obtained the legal rights to explore an area are expensed in the year in which they are incurred. Once the legal right to explore a property has been acquired, costs directly related to exploration and evaluation expenditures are recognized and capitalized, in addition to the acquisition costs. These direct expenditures include such costs as materials used, surveying costs, drilling costs, payments made to contractors, and depreciation on plant and equipment during the exploration phase. Costs not directly attributable to exploration and evaluation activities, including general administrative overhead costs, are expensed in the year in which they occur.

Mineral property acquisition costs and exploration and evaluation expenditures are recorded at cost. When shares are issued as part of mineral property acquisition costs, they are valued at the closing share price on the date of issuance unless the fair value of goods or services received is determinable. Payments related to a property acquired under an option or joint venture agreement, where payments are made at the sole discretion of the Company, are recorded in the amounts upon payment.

Once the technical feasibility and commercial viability of extracting the mineral resource has been determined, the property is considered to be a mine under development and is classified as “mines under construction”. Exploration and evaluation assets are also tested for impairment before the assets are transferred to development properties.

The Company may occasionally enter into farm-out arrangements, whereby the Company will transfer part of a mineral property interest, as consideration, for an agreement by transferee to meet certain exploration and evaluation expenditures that would otherwise have been undertaken by the Company. The Company does not record any expenditures made by the farmee on its behalf. Any cash consideration received from the agreement is credited against the costs previously capitalized to the mineral property interest given up by the Company, with any excess cash accounted for as a gain on disposal.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### c) Exploration and evaluation assets (continued)

##### *ii) Impairment*

When a project is deemed to no longer have commercially viable prospects to the Company, exploration and evaluation expenditures in respect of that project are deemed to be impaired. As a result, those exploration and evaluation expenditure costs, in excess of estimated recoveries, are written off to profit or loss.

The Company assesses exploration and evaluation assets for impairment when facts and circumstances suggest that the carrying amount of an asset may exceed its recoverable amount, and at least annually. The recoverable amount is the higher of the asset's fair value less costs to sell and value in use.

##### *iii) Decommissioning liabilities*

An obligation to incur decommissioning and site rehabilitation costs occurs when environmental disturbance is caused by exploration, evaluation, development or ongoing production.

Decommissioning and site rehabilitation costs arising from the installation of plant and other site preparation work, discounted to their net present value, are provided when the obligation to incur such costs arises and are capitalized into the cost of the related asset. These costs are charged against operations through depreciation of the asset and unwinding of the discount on the provision.

Depreciation is included in operating costs while the unwinding of the discount is included as a financing cost. Changes in the measurement of a liability relating to the decommissioning or site rehabilitation of plant and other site preparation work are added to, or deducted from, the cost of the related asset.

The costs for the restoration of site damage, which arises during production, are provided at their net present values and charged against operations as extraction progresses.

Changes in the measurement of a liability, which arises during production, are charged against operating profit. The discount rate used to measure the net present value of the obligations is the pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the obligation.

#### d) Capital stock

Proceeds from the exercise of stock options and warrants are recorded as capital stock in the amount for which the option or warrant enabled the holder to purchase a share in the Company. Capital stock issued for non-monetary consideration is valued at the closing market price at the date of issuance when the fair value of the non-monetary assets cannot be reasonably estimated. The proceeds from the issuance of units are allocated between common shares and warrants based on the residual value method. Under this method, the proceeds are allocated first to capital stock based on the fair value of the common shares at the time the units are priced and any residual value is allocated to the warrants reserve within share-based payments reserve. Consideration received for the exercise of warrants is recorded in capital stock and the related residual value in warrants reserve is transferred to capital stock. For those warrants that expire the recorded value is transferred to deficit.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### e) Foreign currency translation

The functional currency of the Company is the Canadian dollar. The functional currency of the Company's subsidiaries (Pacton Pilbara, CTTR, Drummond East and Arrow Pilbara) is the Australian dollar ("AUD"), which is the local currency of their home jurisdiction. Each component's functional currency is the currency of the primary economic environment in which the component operates. The Company's financial statements are presented in Canadian dollars.

Transactions in foreign currencies are translated to the functional currency of each entity at a rate of exchange approximating the prevailing rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rate in effect at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Realized and unrealized exchange gains and losses are recognized in profit or loss.

On consolidation, the assets and liabilities of foreign operations are translated into Canadian dollars at the rate of exchange prevailing at the reporting date and their statements of income (loss) are translated at the average exchange rates for the reporting period. The exchange differences arising on consolidation are recognized in other comprehensive income or loss. On disposal of a foreign operation, the component of other comprehensive income or loss relating to that particular foreign operation is reclassified to profit or loss.

#### f) Flow-through shares

The Company will, from time to time, issue flow-through common shares to finance its exploration programs. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. Upon issuance, the Company bifurcates the flow-through share into: (i) a flow-through share premium equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability; and (ii) share capital. Upon expenses being renounced, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the investors. The premium is recognized as other income and the related deferred tax is recognized as a tax provision.

Proceeds received from the issuance of flow-through shares are restricted to be used only for Canadian resource property exploration expenditures within a two-year period. The Company may also be subject to a Part XII.6 tax on flow-through proceeds renounced under the Look-back Rule in accordance with Government of Canada flow-through regulations. When applicable, this tax is accrued as a financial expense until paid.

#### g) Financial instruments

All financial assets not classified at amortized cost or fair value through other comprehensive income ("FVTOCI") are measured at fair value through profit or loss ("FVTPL"). On initial recognition, the Company can irrevocably designate a financial asset at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **g) Financial instruments (continued)**

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated at FVTPL:

- It is held within a business model whose objective is to hold the financial asset to collect the contractual cash flows associated with the financial asset instead of selling the financial asset for a profit or loss; and
- Its contractual terms give rise to cash flows that are solely payments of principal and interest.

All financial instruments are initially recognized at fair value on the consolidated statement of financial position. Subsequent measurement of financial instruments is based on their classification. Financial assets and liabilities classified at FVTPL are measured at fair value with changes in those fair values recognized in net income (loss) for the period. Financial assets and financial liabilities classified at amortized cost are subsequently measured at amortized cost using the effective interest method. Financial assets classified at FVTOCI are subsequently measured at fair value with unrealized gains or losses recognized in other comprehensive income (loss). When the financial instrument is sold, the cumulative gain or loss remains in accumulated other comprehensive income or loss and is not reclassified to profit or loss.

#### **Fair value hierarchy**

Fair value measurements of financial instruments are required to be classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The levels of the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for assets or liabilities that are not based on observable market data.

#### **h) Share-based payments**

The Company grants share options to acquire common shares of the Company to directors, officers, employees and consultants. The fair value of share-based payments to employees is measured at grant date using the Black-Scholes option pricing model, and is recognized over the vesting period for employees using the graded method. Fair value of share-based payments for non-employees is recognized and measured at the date the goods or services are received based on the fair value of the goods or services received. If it is determined that the fair value of goods and services received cannot be reliably measured, the share-based payment is measured at the fair value of the equity instruments issued using the Black-Scholes option pricing model.

For both employees and non-employees, the fair value of share-based payments is recognized as either an expense or as mineral property interests with a corresponding increase in option reserves within share-based payments reserve. The amount recognized as expense is adjusted to reflect the number of share options expected to vest. Consideration received on the exercise of stock options is recorded in capital stock and the related share-based payment in option reserves is transferred to capital stock. For those options that expire or are forfeited after vesting, the recorded value is transferred to deficit.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **i) Income taxes**

Income tax expense consisting of current and deferred tax expense is recognized in the consolidated statement of comprehensive loss. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period-end, adjusted for amendments to tax payable with regard to previous years.

Deferred tax assets and liabilities and the related deferred income tax expense or recovery are recognized for deferred tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment occurs.

A deferred tax asset is recognized to the extent that it is probable that future taxable income will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a deferred tax asset will be recovered, the deferred tax asset is reduced. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

#### **j) Earnings (loss) per share**

The Company presents basic earnings (loss) per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of shares outstanding during the period. The Company uses the treasury stock method for calculating diluted earnings (loss) per share. Under this method the dilutive effect on earnings per share is calculated on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds of such exercise would be used to purchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercise of options and warrants that would be anti-dilutive. The Company's options and warrants were anti-dilutive in the years ended November 30, 2020 and 2019, as losses were incurred.

#### **k) Impairment of assets**

Assets that have an indefinite useful life are tested annually for impairment. At the end of each reporting period, the Company reviews the carrying amounts of its assets that are subject to depreciation to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### k) Impairment of assets (continued)

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

Where an impairment loss subsequently reverses for assets with a finite useful life, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or CGU in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

#### l) Joint arrangements

Certain activities of the Company may be conducted through joint arrangements in which two or more parties have joint control. A joint arrangement is classified as either a joint operation or a joint venture, depending on the rights and obligations of the parties to the arrangement.

Joint operations arise when the Company has a direct ownership interest in jointly controlled assets and obligations for liabilities. The financial statements include the Company's proportionate share of the assets, liabilities, revenues, expenses and cash flows of this type of arrangement.

Joint ventures arise when the Company has rights to the net assets of the arrangement. For these arrangements, the Company uses the equity method of accounting and recognizes initial and subsequent investments at cost, adjusting for the Company's share of the joint venture's income or loss, less dividends received thereafter. Joint ventures are tested for impairment whenever objective evidence indicates that the carrying amount of the investment may not be recoverable under the equity method of accounting. The impairment amount is measured as the difference between the carrying amount of the investment and the higher of its fair value less costs of disposal and its value in use. Impairment losses are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized.

#### m) New accounting standard adopted during the year

##### **IFRS 16 Leases**

###### *Initial adoption*

On December 1, 2019, the Company adopted IFRS 16, which specifies how an IFRS reporter will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is twelve months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, International Accounting Standard ("IAS") 17 *Leases*. The standard was issued in January 2016 and is effective for annual periods beginning on or after January 1, 2019.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### m) New accounting standard adopted during the year (continued)

The Company has elected to apply IFRS 16 using a modified retrospective approach, which does not require restatement of prior period financial information. Modified retrospective application recognizes the cumulative effect of IFRS 16 as an adjustment to opening deficit at December 1, 2019 and applies the standard prospectively. The adoption of IFRS 16 did not result in the recognition of a right-of-use (“ROU”) asset nor a lease obligation at December 1, 2019.

#### **Ongoing recognition and measurement**

On the date that the leased asset becomes available for use, the Company recognizes a ROU asset and a corresponding lease obligation. Interest expense associated with the lease obligation is charged to the consolidated statement of income/loss over the lease period with a corresponding increase to the lease obligation. The lease obligation is reduced as payments are made against the principal portion of the lease. The ROU asset is depreciated over the shorter of the asset’s useful life and the lease term on a straight-line basis. Depreciation of the ROU asset is recognized in depreciation expense.

#### n) New accounting standards issued but not yet effective

Below is a non-exhaustive list of some amendments which are most relevant to the Company’s consolidated financial statements.

#### **IFRS 3 *Business Combinations***

IFRS 3 has been amended to revise the definition of a business to include an input and a substantive process that together significantly contribute to the ability to create outputs. The amendment to IFRS 3 is effective for years beginning on or after January 1, 2020. The amendment to IFRS 3 is expected to have no impact for the Company.

#### **IAS 1 *Presentation of Financial Statements* and IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors***

IAS 1 and IAS 8 have been amended to use a consistent definition of materiality throughout IFRS and the Conceptual Framework for Financial Reporting; clarify the explanation of the definition of material; and incorporate guidance in IAS 1 regarding immaterial information. The amendments to IAS 1 and IAS 8 are effective for years beginning on or after January 1, 2020. These amendments are expected to have no impact for the Company.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income or loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

#### *Critical judgments in applying accounting policies*

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below.

#### a) Impairment of exploration and evaluation assets

The application of the Company's accounting policy for exploration and evaluation expenditures and impairment of the capitalized expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the year the new information becomes available.

#### b) Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

#### c) Income taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability, including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent that it is probable that taxable profit will be available against which a deductible temporary difference can be utilized. This is deemed to be the case when there are sufficient taxable temporary differences relating to the same taxation authority and the same taxable entity that are expected to reverse in the same year as the expected reversal of the deductible temporary difference, or in years into which a tax loss arising from the deferred tax asset can be carried back or forward. However, utilization of the tax losses also depends on the ability of the taxable entity to satisfy certain tests at the time the losses are recouped.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)**

#### *Critical judgments in applying accounting policies (continued)*

d) Going concern

The assessment of the Company's ability to continue as a going concern requires significant judgment. The financial statements have been prepared on the basis of accounting principles applicable to a going concern, as disclosed in note 2.

e) Joint arrangement

Significant judgment is required in determining whether the Company's interest in arrangements constitutes a joint arrangement. The Company has not, after considering the structure and form of the arrangement and the terms agreed by the parties in the contractual arrangement and the Company's rights and obligations arising from the arrangement, classified its interests as joint ventures under IFRS 11 Joint Arrangements. Consequently, it accounts for its interest under IFRS 6 Exploration for and Evaluation of Mineral Resources.

#### *Key sources of estimation uncertainty*

The following are key assumptions concerning the future and other key sources of estimation uncertainty that have a significant risk of resulting in material adjustments to the financial statements.

a) Decommissioning liabilities

Rehabilitation provisions have been created based on the Company's internal estimates. Assumptions, based on the current economic environment, have been made, which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from year to year. Actual rehabilitation costs will ultimately depend on future market prices for the rehabilitation costs that will reflect the market condition at the time the rehabilitation costs are actually incurred. The final cost of the currently recognized rehabilitation provisions may be higher or lower than currently provided for. As at November 30, 2020, the Company had no known rehabilitation requirements, and accordingly, no provision has been made.

b) Fair value of stock options granted

The Company uses the Black-Scholes option pricing model to value the stock options granted during the year. The Black-Scholes model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. The model requires management to make estimates that are subjective and may not be representative of actual results. Changes in assumptions can materially affect estimates of fair values.

## PACKTON GOLD INC.

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### 6. FINANCIAL INSTRUMENTS

Financial instruments are agreements between two parties that result in promises to pay or receive cash or equity instruments. The Company classifies its financial instruments as follows: cash and cash equivalents, as FVTPL; receivables, as amortized cost; and accounts payable and accrued liabilities, as amortized cost. The carrying values of these instruments approximate their fair values due to their short term to maturity.

The following table sets forth the Company's financial asset measured at fair value by level within the fair value hierarchy:

<b>November 30, 2020</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Cash and cash equivalents	\$ 2,721,339	\$ -	\$ -	\$ 2,721,339

  

<b>November 30, 2019</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Cash and cash equivalents	\$ 905,356	\$ -	\$ -	\$ 905,356

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company manages credit risk, in respect of cash, by placing it at major Canadian financial institutions. Included in receivables is \$271,753 (2019 - \$125,293) owing from the Canada Revenue Agency and the Australian Taxation Office. The Company has minimal credit risk.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The contractual financial liabilities of the Company as of November 30, 2020 equal \$1,029,424 (2019 - \$491,992). All of the liabilities presented as accounts payable and accrued liabilities are due within 30 days of November 30, 2020.

c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return on capital.

## PACTON GOLD INC.

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### 6. FINANCIAL INSTRUMENTS (Continued)

#### c) Market risk (continued)

- i) *Currency risk* – Currency risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in foreign exchange rates. The Company has operations in Canada and Australia and incurs operating and exploration expenditures in both currencies. The fluctuation of the Canadian dollar in relation to the AUD) will have an impact upon the results of the Company. The Company does not hold substantial funds in a foreign currency, and only a small amount of its accounts payable and accrued liabilities is denominated in AUD. A fluctuation in the exchanges rates between the Canadian and Australian dollars of 10% would result in a \$11,000 change in the Company's cash, \$7,000 change in accounts payable and accrued liabilities and \$569,500 change in other comprehensive income (loss). The Company does not use any techniques to mitigate currency risk.
- ii) *Interest rate risk* – Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. Interest earned on cash is at nominal interest rates, and therefore, the Company does not consider interest rate risk to be significant. The Company has no interest-bearing financial liabilities.
- iii) *Other price risk* – Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk. The Company is not exposed to significant other price risk.

#### d) Capital management

The Company considers its capital to be comprised of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares. Although the Company has been successful at raising funds in the past through the issuance of capital stock, it is uncertain whether it will continue this method of financing due to the current difficult market conditions.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

Management reviews the capital structure on a regular basis to ensure that the above objectives are met. There have been no changes to the Company's approach to capital management during the year ended November 30, 2020. The Company is not subject to externally imposed capital requirements.

### 8. EXPLORATION AND EVALUATION ASSETS

#### a) Pilbara Project

##### CTTR

On March 20, 2018, the Company entered into a share purchase agreement to acquire 100% of the issued and outstanding shares of CTTR, an Australian proprietary limited company. CTTR holds applications to nine tenement licenses for a mineral property group in the Pilbara Region of Western Australia.

## **PACTON GOLD INC.**

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

---

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### a) Pilbara Project (continued)

##### **CTTR (continued)**

Under the terms of the share purchase agreement, the Company acquired 100% of the issued and outstanding shares of CTTR by:

- Paying a \$25,000 non-refundable deposit (paid);
- Paying \$75,000 (paid) and issuing 91,666 common shares (issued and valued at \$238,333) of the Company and 45,833 share purchase warrants (issued and valued at \$64,545). Each warrant is exercisable into one additional common share of the Company for a period of 18 months from the date of issue at a price of \$4.50, upon acceptance of the transaction by the TSX-V (issued on March 29, 2018); and
- Paying \$50,000 (paid) and issuing 41,666 common shares (issued and valued at \$270,833) of the Company and 20,833 share purchase warrants (issued and valued at \$72,034). Each warrant is exercisable into one additional common share of the Company for a period of 18 months from the date of issue at a price of \$9.70.

The Company also issued 15,625 common shares valued at \$40,625 as a finder's fee on the transaction.

The acquisition of CTTR has been accounted for as an acquisition of assets and liabilities, as CTTR does not meet the definition of a business under IFRS 3. The acquisition of the net assets of CTTR was recorded at the fair value of the consideration transferred of \$836,370, as detailed above. The net assets acquired consisted entirely of exploration and evaluation assets.

On January 6, 2020, the Company surrendered all tenement licenses, which resulted in an impairment charge of \$832,177 for the year ended November 30, 2019.

##### **Arrow Pilbara**

On May 11, 2018, the Company entered into a share purchase and option agreement whereby the Company could earn up to an 80% interest in Arrow Pilbara, an Australian proprietary limited exploration company. Arrow Pilbara holds two granted tenement licenses and two applications for licenses in the Pilbara Region of Western Australia.

Under the terms of the agreement, the Company was required to make cash payments and issue common shares and common share purchase warrants of the Company to acquire a 51% interest in Arrow Pilbara as follows:

- Issue 108,695 common shares (issued and valued at \$695,652) and 108,695 common share purchase warrants (issued and valued at \$583,761) exercisable into one share at \$3.50 for three years and pay \$500,000 (paid \$400,000), with remaining due upon grant of application. On January 7, 2020, the outstanding \$100,000 payment was renegotiated down to \$45,995 and paid.

To acquire a further 29% interest in Arrow Pilbara, the Company was required to:

- Pay \$250,000 or an equivalent number of common shares based on the five-day trailing volume-weighted average price at the time of issue, subject to a floor price of no lower than \$1.90 per common share; and
- Fund exploration expenditures up to a maximum of \$500,000.

(Expressed in Canadian Dollars)

---

### 8. EXPLORATION AND EVALUATION ASSETS (Continued)

#### a) Pilbara Project (continued)

##### Arrow Pilbara (continued)

The vendor retains a right to explore for, mine and extract lithium, caesium and tantalum from the property.

A discovery bonus of \$500,000 cash is payable if the Company reports a National Instrument (“NI”) 43-101-defined “measured mineral resource” or “inferred mineral resource” of at least 100,000 ounces of gold on the property.

The Company also issued 22,794 common shares valued at \$58,125 as a finder’s fee on the transaction.

The acquisition of 51% of Arrow Pilbara has been accounted for as an acquisition of assets and liabilities, as Arrow Pilbara does not meet the definition of a business under IFRS 3. The acquisition of the net assets of Arrow Pilbara was recorded at the fair value of the consideration transferred of \$1,637,538, as detailed above. The net assets acquired were as follows:

<b>Net Assets Acquired</b>	
Exploration and evaluation assets	\$ 3,210,860
Non-controlling interest	(1,573,322)
	<b>\$ 1,637,538</b>

On August 20, 2018, the Company entered into a share purchase agreement to acquire the remaining ownership interest in Arrow Pilbara. Under the terms of the agreement, the Company acquired the remaining 49% ownership interest in Arrow Pilbara by paying \$1,000,000 (paid) and issuing 200,000 common shares (issued and valued at \$820,000).

The purchase of the remaining 49% interest was accounted for as follows:

<b>Acquisition of 49% Interest</b>	
Additional consideration paid	\$ 1,820,000
Elimination of non-controlling interest	(1,573,322)
Loss on acquisition	\$ 246,678

On January 6, 2020, the Company surrendered two tenement licenses, which resulted in an impairment charge of \$636,906 for the year ended November 30, 2019.

On February 16, 2021, the Company sold a 75% interest in Arrow Pilbara. See note 15(c).

##### Drummond East

On August 15, 2018, the Company entered into a share purchase agreement to acquire a 100% interest in Drummond East, an arm's length Australian exploration company wholly owned by Impact Minerals Ltd. (“Impact”). Drummond East holds seven granted tenement licenses in the Pilbara Region of Western Australia.

## **PACTON GOLD INC.**

(Expressed in Canadian Dollars)

---

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### a) Pilbara Project (continued)

##### **Drummond East (continued)**

Under the terms of the agreement, the Company paid Impact a total of \$350,000 and issued to Impact 212,500 common shares of the Company valued at \$860,625.

In addition, the Company will pay a bonus to Impact of \$500,000 if the Company publishes measured, indicated or inferred gold resources of more than 250,000 ounces on the property. The Company granted Impact a 2% net smelter return royalty ("NSR") in respect of the property. The Company retains an exclusive and unlimited right to purchase back 50% of the NSR from Impact for \$500,000.

The Company paid a finder's fee of 29,187 common shares (issued and valued at \$145,938).

The acquisition of Drummond East has been accounted for as an acquisition of assets and liabilities, as Drummond East does not meet the definition of a business under IFRS 3. The acquisition of the net assets of Drummond East was recorded at the fair value of the consideration transferred of \$1,356,563, as detailed above. The net assets acquired consisted entirely of exploration and evaluation assets.

On January 6, 2020, the Company surrendered three tenement licenses, which resulted in an impairment charge of \$629,073 for the year ended November 30, 2019.

At November 30, 2020, the Company decided not to complete expenditure on three additional tenement licenses. An impairment charge of \$644,600 has been recorded effective November 30, 2020.

##### **Friendly Creek**

On August 11, 2018, the Company entered into a tenement sale agreement to acquire 100% of the Friendly Creek exploration license and mining leases in the Pilbara Region of Western Australia.

Under the terms of the agreement, the Company purchased a 100% interest in Friendly Creek by paying the vendors a total of \$25,000 (paid) and issuing to the vendors 250,000 common shares of the Company (issued and valued at \$562,500).

##### **Yandicoogina and Boodalyerrie**

On September 25, 2018, the Company entered into a tenement sale agreement to acquire 100% of both the Yandicoogina and Boodalyerrie exploration licenses and mining leases from Gardner Mining Pty. Ltd. ("Gardner Mining"), an Australian proprietary limited exploration company.

Under the terms of the agreement, the Company purchased a 100% ownership interest in the projects by paying Gardner Mining \$25,000 (paid) and issuing to Gardner Mining 300,000 common shares of the Company (issued and valued at \$720,000).

On February 16, 2021, the Company sold a 75% interest in Yandicoogina and Boodalyerrie. See note 15(c).

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### a) Pilbara Project (continued)

##### **Golden Palms Project**

On November 5, 2018, the Company entered into a tenement sale agreement to acquire the Golden Palms tenement license in Western Australia.

Under the terms of the agreement, Pacton can purchase 100% of the property by paying a total of \$100,000 (paid) and issuing 40,000 common shares on completion of the transaction (issued on February 18, 2020 and valued at \$40,000).

##### **Hong Kong Project**

On November 23, 2018, the Company entered into a tenement sale agreement to acquire a 70% interest in the Hong Kong project from Clancy Exploration Ltd. ("Clancy"), an Australian Securities Exchange-listed exploration company.

Under the terms of the agreement, the Company purchased a 70% interest in the Hong Kong project by paying Clancy \$200,000 (paid) and issuing to Clancy 378,061 common shares of the Company (issued and valued at \$1,323,215). In addition, the Company issued 30,000 common shares valued at \$82,500 as a finder's fee on the project.

Upon completion of the acquisition, the Company and Clancy will enter into a joint venture, with Pacton acting as operator of the Hong Kong project. A minimum of AUD \$520,000 must be spent by the Company within two years of completion of the transaction. Clancy will be free carried with respect to expenditures until a decision to mine is made unanimously by both parties.

At November 30, 2020, the Company decided not to complete expenditure on the tenement license. An impairment charge of \$1,624,322 has been recorded effective November 30, 2020.

##### **Keras Project**

On October 18, 2018, the Company entered into a grant of gold rights agreement to acquire the conglomerate gold rights of Calidus Resources Ltd. in both the Marble Bar sub basin and the northeast Pilbara sub basin of Western Australia's Pilbara craton.

Under the terms of the agreement, the Company acquired the gold rights by paying \$10,000 (paid) and issuing 700,000 common shares of the Company (issued and valued at \$1,925,000) and deferred compensation of 300,000 additional common shares of the Company (issued and valued at \$330,000). A minimum of AUD \$55,000 was required to be spent by the Company on each anniversary of the completion of the transaction.

On January 6, 2020, the Company decided not to pursue further exploration on the project. An impairment charge of \$2,221,479 has been recorded effective November 30, 2019.

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### a) Pilbara Project (continued)

##### **Tardarina Project**

On March 22, 2019, the Company entered into a tenement sale agreement to acquire the Tardarina tenement license in Western Australia.

Under the terms of the agreement, the Company acquired a 100% interest in the property by issuing 125,000 common shares on completion of the transaction (issued on August 27, 2019 and valued at \$281,250).

##### **Sandstorm Royalties**

On May 25, 2020, the Company entered into an agreement with Sandstorm Gold Ltd. ("Sandstorm"), whereby the Company granted Sandstorm a 1% NSR on all the tenements owned by Pacton in Australia for \$81,819. The tenements covered are part of Arrow Pilbara, Friendly Creek, Yandicoogina and Boodalyerrie, Golden Palms Project, Hong Kong Project and Tardarina Project above. The Company also assigned its royalty buyback on Drummond East to Sandstorm.

#### b) Red Lake Project

On May 23, 2017, the Company entered into an option agreement to earn a 100% interest in 14 mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company was required to make cash payments and issue common shares of the Company as follows:

- Issue 30,000 common shares of the Company (issued and valued at \$42,000) and pay \$16,000 (paid) within five days of approval by the TSX-V, which was received on May 26, 2017;
- Pay \$12,000 on or before May 26, 2018 (paid);
- Pay \$16,000 on or before May 26, 2019 (paid); and
- Pay \$26,000 on or before May 26, 2020 (paid).

The claims are subject to an underlying 2% NSR.

On May 23, 2017, and as amended November 23, 2017, June 14, 2018 and May 22, 2019, the Company entered into an additional option agreement to earn a 100% interest in 30 additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company was required to make cash payments and issue common shares of the Company as follows:

- Issue 250,000 common shares of the Company (issued and valued at \$350,000) within five days of approval by the TSX-V, which was received on May 26, 2017;
- Pay \$20,000 on or before June 30, 2018 (paid);
- Pay \$80,000 on or before January 31, 2019 (paid); and
- Pay \$150,000 on or before June 30, 2019 (paid).

The vendors retain a 2.5% NSR, of which two-fifths (1%) can be repurchased by the Company for \$1,500,000. On October 25, 2018, one of the vendors became a director of the Company.

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### b) Red Lake Project (continued)

On November 1, 2018, the Company entered into an option agreement to earn a 100% interest in 12 mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company was required to make cash payments and issue common shares of the Company as follows:

- Pay \$15,000 on or before November 6, 2018 (paid);
- Pay \$15,000 (paid) and issue 10,000 common shares of the Company (issued and valued at \$25,500) within five days of approval by the TSX-V, which was received November 19, 2018;
- Pay \$40,000 (paid) and issue 7,500 common shares of the Company on or before November 19, 2019 (issued and valued at \$7,875); and
- Pay \$40,000 (paid) and issue 7,500 common shares of the Company on or before November 19, 2020 (issued and valued at \$7,425).

The vendors retain a NSR that ranges from 0.25% to 2.25%, of which one-half can be repurchased by the Company for \$250,000.

On January 29, 2019, the Company entered into an agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. The Company issued 19,231 common shares on February 6, 2019 valued at \$48,077. The claims are subject to a NSR ranging from 0.25% to 2.25%, of which a portion can be repurchased by the Company for \$250,000.

On February 12, 2019, the Company entered into an agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. The Company paid \$15,000 and on February 28, 2019 issued 7,500 common shares valued at \$19,125. The claims are subject to a 2% NSR, of which one-half can be repurchased by the Company for \$200,000.

On February 20, 2019, the Company entered into an option agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company must make cash payments and issue common shares of the Company as follows:

- Pay up to \$30,000 on behalf of the vendor for exploration expenditures (paid);
- Issue 12,500 common shares of the Company within five days of approval by the TSX-V, which was received March 5, 2019 (issued and valued at \$31,250);
- Pay \$50,000 (paid) and issue 10,000 common shares of the Company on or before March 5, 2020 (issued and valued at \$8,500); and
- Pay \$50,000 (paid subsequent to the year-end) and issue 12,500 common shares of the Company on or before March 5, 2021 (issued subsequent to November 30, 2020 and valued at \$9,750).

The claims are subject to a 0.25% to 1.75% NSR, of which a portion can be repurchased by the Company at a rate of \$250,000 for each 0.25% portion that is repurchased.

On March 13, 2019, the Company entered into an option agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company must make cash payments and issue common shares of the Company as follows:

- Pay up to \$40,000 on behalf of the vendor for exploration expenditures (paid);
- Issue 10,000 common shares of the Company within five days of approval by the TSX-V, which was received March 21, 2019 (issued and valued at \$23,000);
- Pay \$50,000 (paid) and issue 10,000 common shares of the Company on or before March 21, 2020 (issued and valued at \$6,000); and

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### b) Red Lake Project (continued)

- Pay \$50,000 (paid subsequent to the year-end) and issue 12,500 common shares of the Company on or before March 21, 2021 (issued subsequent to November 30, 2020 and valued at \$10,875).

The claims are subject to a 2.5% NSR, of which one-half can be repurchased by the Company for \$2,000,000.

On April 23, 2019, the Company entered into an option agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company was required to make cash payments and issue common shares of the Company as follows:

- Pay \$30,000 (paid) and issue 10,000 common shares of the Company (issued and valued at \$16,500) within five days of approval by the TSX-V, which was received on May 6, 2019;
- Pay \$30,000 (paid) and issue 15,000 common shares of the Company on or before May 6, 2020 (issued and valued at \$11,250); and
- Pay \$30,000 (paid) on or before May 6, 2021.

On July 23, 2019, the Company entered into two agreements to acquire 100% interests in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of each agreement, the Company must make a cash payment of \$100,000 and issue 40,000 common shares of the Company upon approval by the TSX-V. A total of \$200,000 was paid and 80,000 common shares were issued on August 12, 2019 and valued at \$140,000.

On October 22, 2019, the Company entered into an option agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company must make cash payments and issue common shares of the Company as follows:

- Pay \$35,000 (paid) and issue 15,000 common shares of the Company within five days of approval by the TSX-V, which was received November 6, 2019 (issued and valued at \$16,500);
- Pay \$22,500 (paid) and issue 15,000 common shares of the Company on or before November 6, 2020 (issued and valued at \$14,850);
- Pay \$22,500 and issue 15,000 common shares of the Company on or before November 6, 2021;
- Pay \$22,500 and issue 15,000 common shares of the Company on or before November 6, 2022; and
- Pay \$22,500 and issue 15,000 common shares of the Company on or before November 6, 2023.

The claims are subject to a 0.25% to 2.25% NSR, of which one-half may be repurchased by the Company for \$1,000,000.

On April 23, 2020, the Company entered into an option agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company must make cash payments and issue common shares of the Company as follows:

- Pay \$15,000 (paid) and issue 25,000 common shares of the Company on or before April 30, 2020 (issued and valued at \$20,000);
- Pay \$15,000 (paid subsequent to November 30, 2020) and issue 15,000 common shares (issued subsequent to November 30, 2020 and valued at \$13,950) of the Company on or before April 30, 2021; and
- Pay \$25,000 (paid subsequent to November 30, 2020) and issue 15,000 common shares (issued subsequent to November 30, 2020 and valued at \$13,950) of the Company on or before April 30, 2022.

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### b) Red Lake Project (continued)

The claims are subject to a 1.5% NSR, of which one-half may be repurchased by the Company for \$500,000.

On April 24, 2020, the Company entered into an option agreement to acquire a 100% interest in additional mineral claims in the Red Lake Mining District, located in Ontario. Under the terms of the agreement, the Company must make cash payments and issue common shares of the Company as follows:

- Pay \$6,000 (paid) and issue 10,000 common shares of the Company on or before April 30, 2020 (issued and valued at \$8,000);
- Pay \$10,000 and issue 10,000 common shares of the Company on or before April 30, 2021; and
- Pay \$20,000 and issue 10,000 common shares of the Company on or before April 30, 2022.

The claims are subject to a 1.5% NSR, of which one-half may be repurchased by the Company for \$400,000.

On May 25, 2020, the Company entered into an agreement with Sandstorm, whereby the Company granted Sandstorm a 0.5% to 1% NSR on certain mineral claims owned by the Company in Red Lake, and certain mineral claims in which the Company was currently earning an interest in Red Lake. As of November 30, 2020, the Company has received \$136,365 for the mineral claims it owns. Sandstorm has agreed to pay an additional \$81,819 once the Company has earned a 100% interest in the remaining Red Lake mineral claims. The Company also assigned its royalty buybacks on all Red Lake agreements to Sandstorm.

#### **Red Lake – Sidace**

On April 1, 2020, the Company accepted a purchase agreement with TomaGold Corporation (“TomaGold”), whereby the Company will acquire all of TomaGold’s interest, being 39.5%, in a joint venture it currently holds with Evolution Mining and Newmont Corporation (formerly GoldCorp Inc. when TomaGold entered into the joint venture) on the Sidace Property, located in the Red Lake Mining District in Ontario.

Under the terms of the agreement, the Company must pay and issue the following to TomaGold:

- Upon final acceptance of the transaction by the TSX-V, pay \$250,000 (paid) and issue 1,000,000 common shares (issued and valued at \$750,000);
- Within six months of TSX-V acceptance, pay \$250,000 (paid) and issue \$800,000 worth of common shares at a price per share equal to the greater of \$1.60 and the five-day volume weighted average price of the Company’s shares immediately preceding the date of issuance (issued 500,000 common shares valued at \$800,000); and
- Upon the Company filing a NI 43-101 technical report on the property showing a gold resource estimate of 750,000 ounces or greater of gold, issue 416,666 common shares or pay \$500,000.

### **8. EXPLORATION AND EVALUATION ASSETS (Continued)**

#### c) Tully West Gold Property

On January 16, 2017, the Company entered into an option agreement to earn a 100% interest in the Tully West Gold Property, located in Ontario. On January 18, 2018, certain terms were amended. Under the terms of the amended agreement, the Company was required to make cash payments and issue common shares of the Company as follows:

- Issue 130,000 common shares of the Company (issued and valued at \$117,000) and pay \$25,000 (paid) within five days of approval by the TSX-V, which was received January 25, 2017;
- Issue 130,000 common shares of the Company on or before January 25, 2018 (issued on January 25, 2018 and valued at \$390,000);
- Pay \$80,000 on or before February 15, 2018 (paid); and
- Issue 130,000 common shares of the Company (issued and valued at \$793,000) and pay \$110,000 (paid) on or before January 25, 2019.

The Company completed an equity financing for gross proceeds in excess of \$1,000,000 (excluding flow-through proceeds), thus the January 25, 2019 common share and cash payments were accelerated.

On December 12, 2018, the agreement was amended to extend the exploration expenditure deadlines. The Company was required to pay an additional \$10,000 on or before January 12, 2019 (paid). The Company was then required to incur exploration expenditures as follows:

- \$250,000 on or before January 16, 2018 (incurred);
- An additional \$500,000 on or before January 25, 2020; and
- An additional \$500,000 on or before January 25, 2021.

The vendors retained a 2.5% NSR, of which two-fifths (1%) could be repurchased by the Company for an aggregate \$1,000,000.

The Company did not incur the required exploration expenditures on the Tully West Gold Property by January 25, 2020. Accordingly, the Company recorded an impairment charge of \$2,246,986 at November 30, 2019.

### **10. CAPITAL STOCK (Continued)**

#### b) Issued

##### **During the year ended November 30, 2020**

On December 23, 2019 and January 17, 2020, the Company closed a private placement in two tranches. The Company issued 1,322,732 units at a price of \$1.20 per unit for gross proceeds of \$1,587,280. Each unit consists of one common share and one share purchase warrant. Each warrant entitles the holder to acquire one common share at a price of \$1.80 for a period of two years from the date of issuance. The Company also issued 3,173,758 flow-through common shares at a price of \$1.30 per share for gross proceeds of \$4,125,886. The premium paid by investors on the flow-through shares was calculated as \$0.10 per share. Accordingly, \$317,376 was recorded as other liabilities. The Company paid finders' fees of \$19,505 and issued 16,254 agent warrants with an exercise price of \$1.80 and a term to expiry of two years (note 10(d)). The Company also incurred other share issue costs of \$37,916.

On February 18, 2020, the Company issued 40,000 common shares valued at \$40,000 for the Pilbara Project (note 8(a) – Golden Palms Project).

On March 4, 2020, the Company issued 10,000 common shares valued at \$8,500 for the Red Lake Property (note 8(b)).

On March 11, 2020, the Company issued 10,000 common shares valued at \$6,000 for the Red Lake Property (note 8(b)).

On April 20, 2020, the Company issued 950,000 common shares valued at \$712,500 for the Red Lake – Sidace Property (note 8(b)). The Company also issued 50,000 common shares valued at \$37,500 as a finder's fee on the transaction.

On April 30, 2020, the Company issued 25,000 common shares valued at \$20,000 for the Red Lake Property (note 8(b)).

On April 30, 2020, the Company issued 10,000 common shares valued at \$8,000 for the Red Lake Property (note 8(b)).

On May 5, 2020, the Company issued 15,000 common shares valued at \$11,250 for the Red Lake Property (note 8(b)).

On June 24, 2020 and July 9, 2020, the Company closed a private placement in two tranches. The Company issued 2,773,000 common shares at a price of \$0.70 per share and 2,856,226 common shares at a price of \$0.70 per share for gross proceeds of \$3,940,458. The Company also issued 1,300,000 flow-through common shares at a price of \$0.77 per share and 2,122,000 flow-through common shares at a price of \$0.79 for gross proceeds of \$2,677,380. The premium paid by investors on the \$0.77 flow-through common shares was calculated as \$0.07 per share and the premium paid by investors on the \$0.79 flow-through shares was calculated as \$0.09 per share. Accordingly, \$91,000 and \$190,980, respectively, were recorded as other liabilities. The Company paid finders' fees of \$68,550 and issued 97,928 agent warrants, which have an exercise price of \$1.00 and a term to expiry of one year (note 10(d)). The Company also incurred other share issue costs of \$35,339.

On October 5, 2020, the Company issued 500,000 common shares valued at \$800,000 for the Red Lake – Sidace Property (note 8(b)).

On November 11, 2020, the Company issued 15,000 common shares valued at \$14,850 for the Red Lake Property (note 8(b)).

## 10. CAPITAL STOCK (Continued)

### b) Issued (continued)

#### During the year ended November 30, 2019 (continued)

On June 7, 2019 and July 3, 2019, the Company closed a private placement in two tranches. The Company issued 3,540,000 common shares at a price of \$1.00 per share and 16,666 common shares at a price of \$1.20 per share for gross proceeds of \$3,560,000. The Company also issued 1,659,084 flow-through common shares at a price of \$1.20 per share for gross proceeds of \$1,990,902. The premium paid by investors on the flow-through shares was calculated as \$0.20 per share. Accordingly, \$331,817 was recorded as other liabilities. The Company paid finders' fees of \$111,048 and issued 67,800 agent warrants, of which 20,550 warrants have an exercise price of \$1.50 and a term to expiry of two years, and 47,250 have an exercise price of \$2.00 and a term to expiry of one year (note 10(d)). The Company also incurred other share issue costs totaling \$28,955.

On August 12, 2019, the Company issued 80,000 common shares valued at \$140,000 for the Red Lake Property (note 8(b)).

On August 27, 2019, the Company issued 125,000 common shares valued at \$281,250 for the Pilbara Project (note 8(a) – Tardarina Project).

On November 13, 2019, the Company issued 300,000 common shares valued at \$330,000 for the Pilbara Project (note 8(a) – Keras Project).

On November 15, 2019, the Company issued 15,000 common shares valued at \$16,500 for the Red Lake Property (note 8(b)).

On November 19, 2019, the Company issued 7,500 common shares valued at \$7,875 for the Red Lake Property (note 8(b)).

The Company received \$155,000 on the exercise of 95,000 stock options. The Company transferred \$111,561, the value of the stock options, from the share-based payment reserve to capital stock upon exercise of the options. The average share price was \$1.90 when the stock options were exercised.

### c) Warrants

Warrant transactions and the number of warrants outstanding are summarized as follows:

	Year Ended November 30, 2020		Year Ended November 30, 2019	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
Outstanding, beginning of year	2,514,588	\$ 3.60	2,560,421	\$ 3.60
Issued	1,322,732	1.80	-	-
Expired	(20,833)	9.70	(45,833)	4.50
Outstanding, end of year	3,816,487	\$ 2.91	2,514,588	\$ 3.60

### 10. CAPITAL STOCK (Continued)

#### c) Warrants (continued)

The following warrants were outstanding and exercisable:

Expiry Date	Weighted Average Remaining Contractual Life in Years	Exercise Price	November 30, 2020
May 9, 2021	0.44	\$ 3.50	2,385,060
May 22, 2021	0.47	\$ 3.50	108,695
December 23, 2021	1.06	\$ 1.80	654,066
January 17, 2022	1.13	\$ 1.80	668,666
	0.67		3,816,487

During the year ended November 30, 2020, the Company transferred \$72,034 (2019 - \$64,545) from the share-based payments reserve to deficit upon the expiry of 20,833 (2019 - 45,833) warrants.

#### d) Agent warrants

Agent warrant transactions and the number of agent warrants outstanding are summarized as follows:

	Year Ended November 30, 2020		Year Ended November 30, 2019	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
Outstanding, beginning of year	212,594	\$ 3.00	144,794	\$ 3.50
Issued	114,182	1.11	67,800	1.80
Expired	(47,250)	2.00	-	-
Outstanding, end of year	279,526	\$ 2.38	212,594	\$ 3.00

The following agent warrants were outstanding and exercisable:

Expiry Date	Weighted Average Remaining Contractual Life in Years	Exercise Price	November 30, 2020
May 9, 2021	0.44	\$ 3.50	144,794
July 3, 2021	0.59	\$ 1.50	20,550
July 9, 2021	0.60	\$ 1.00	97,928
December 23, 2021	1.06	\$ 1.80	15,654
January 17, 2022	1.13	\$ 1.80	600
	0.54		279,526

The Company applies the fair value method using the Black-Scholes option pricing model in accounting for its agent warrants granted. During the year ended November 30, 2020, 114,182 (2019 - 67,800) agent warrants were issued with a fair value of \$82,386 (2019 - \$36,686).

## PACTON GOLD INC.

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

### 10. CAPITAL STOCK (Continued)

#### d) Agent warrants (continued)

The fair value of each agent warrant issued was calculated using the following weighted average assumptions:

	Year Ended November 30, 2020	Year Ended November 30, 2019
Expected life (years)	1.14	1.30
Risk-free interest rate	0.48%	1.49%
Annualized volatility	123%	95%
Dividend yield	N/A	N/A
Stock price at issue date	\$ 0.77	\$ 1.70
Exercise price	\$ 1.11	\$ 1.85
Weighted average issue date fair value	\$ 0.72	\$ 0.54

Option pricing models require the input of highly subjective assumptions regarding volatility. The Company has used historical volatility to estimate the volatility of the share price.

During the year ended November 30, 2020, the Company transferred \$25,567 (2019 - \$nil) from the share-based payments reserve to deficit upon the expiry of 47,250 (2019 - nil) agent warrants.

#### e) Stock options

The Company has a stock option plan to grant incentive stock options to directors, officers, employees and consultants. Under the plan, the aggregate number of common shares that may be subject to option at any one time may not exceed 10% of the issued common shares of the Company as of that date, including options granted prior to the adoption of the plan. Options granted may not exceed a term of 10 years, and the term will be reduced to one year following the date of death of the optionee. All options vest when granted unless otherwise specified by the Board of Directors.

Stock option transactions and the number of stock options outstanding are summarized as follows:

	Year Ended November 30, 2020		Year Ended November 30, 2019	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	1,545,000	\$ 2.46	675,000	\$ 4.30
Granted	1,750,000	1.33	1,185,000	1.60
Exercised	(25,500)	1.33	(95,000)	1.60
Expired	(10,000)	2.20	(220,000)	4.10
Outstanding, end of year	3,259,500	\$ 1.86	1,545,000	\$ 2.46

## PACTON GOLD INC.

Notes to the Consolidated Financial Statements  
For the Years Ended November 30, 2020 and 2019  
(Expressed in Canadian Dollars)

### 10. CAPITAL STOCK (Continued)

#### e) Stock options (continued)

The following stock options were outstanding and exercisable at November 30, 2020:

Expiry Date	Weighted Average Remaining Contractual Life in Years	Exercise Price	Outstanding	Exercisable
May 10, 2021	0.44	\$ 3.50	312,500	312,500
May 14, 2021	0.45	\$ 5.50	10,000	10,000
July 19, 2021	0.63	\$ 5.50	142,500	142,500
July 25, 2021	0.65	\$ 5.70	25,000	25,000
July 5, 2022	1.59	\$ 1.60	685,000	685,000
August 12, 2022	1.70	\$ 1.70	175,000	175,000
August 16, 2022	1.71	\$ 1.70	155,000	155,000
October 1, 2022	1.84	\$ 1.60	30,000	30,000
July 24, 2023	2.65	\$ 1.33	1,724,500	1,724,500
	2.00		3,259,500	3,259,500

The Company applies the fair value method using the Black-Scholes option pricing model in accounting for its stock options granted. Accordingly, share-based payments of \$1,688,352 were recognized during the year ended November 30, 2020 (2019 - \$1,397,607).

The fair value of each stock option granted was calculated using the following weighted average assumptions:

	Year Ended November 30, 2020	Year Ended November 30, 2019
Expected life (years)	3.00	2.96
Risk-free interest rate	0.28%	1.49%
Annualized volatility	126%	121%
Dividend yield	N/A	N/A
Stock price at grant date	\$ 1.33	\$ 1.67
Exercise price	\$ 1.33	\$ 1.65
Weighted average grant date fair value	\$ 0.96	\$ 1.18

Option pricing models require the input of highly subjective assumptions regarding volatility. The Company has used historical volatility to estimate the volatility of the share price.

During the year ended November 30, 2020, the Company transferred \$18,807 (2019 - \$641,717) from the share-based payments reserve to deficit upon the expiry of 10,000 (2019 - 220,000) stock options granted to consultants.

## **14. INCOME TAXES (Continued)**

As of November 30, 2020, the Company has unrecognized deferred tax liabilities of approximately \$747,000 (2019 - \$850,000) due to temporary differences arising on the initial recognition of the acquisition of all of the issued and outstanding common shares of CTTR, Arrow Pilbara and Drummond East.

## **15. SUBSEQUENT EVENTS**

- a) On December 16, 2020, the Company completed a private placement for gross proceeds of \$3,637,000. The Company issued 1,807,778 units at a price of \$0.90 per unit for gross proceeds of \$1,627,000. Each unit consisted of one common share of the Company and one share purchase warrant. Each warrant entitles the holder to acquire one common share of the Company at an exercise price of \$1.25 for a period of two years. The Company paid finder's fees of \$37,800 in cash and issued 42,000 warrants as finder's fees, which have an exercise price of \$1.25 and a term to expiry of two years. The Company also issued 2,010,000 flow-through common shares at a price of \$1 per share for gross proceeds of \$2,010,000.
- b) On December 21, 2020, the Company issued 30,000 common shares valued at \$27,900 for the Red Lake Project (note 8(b) – Red Lake Project).
- c) On February 16, 2021, the Company sold a 75% interest in the Arrow Pilbara property and the Yandicoogina and Boodalyerrie property. The Company received \$500,000 and 129,721,250 common shares of Raiden Resources Limited, a company listed on the Australian Securities Exchange (valued at \$2,327,503 based on the trading price on February 19, 2021 and net of their put option value for a six-month hold period). The Company will receive a further \$500,000 by February 16, 2022.

The Company retains a 25% carried interest in the properties until the delineation of a mineral resource in accordance with the Joint Ore Reserves Committee 2012 guidelines (or other globally recognized code) of at least 250,000 ounces gold at a minimum grade of one gram per tonne gold across any of the properties. Following that, the parties will be required to enter into a joint venture, under which the Company can contribute proportional to its respective equity interest or dilute.

- d) In March 2021, the Company paid an aggregate of \$100,000 and issued an aggregate of 25,000 common shares valued at \$20,625 for the Red Lake Project (note 8(b) – Red Lake Project).
- e) On March 3, 2021, the Company entered into amendment agreement to acquire one additional mineral claim for the Red Lake Project through its April 28, 2020 option agreement (note 8(b) – Red Lake Project). As consideration the Company paid \$500 and issued 30,000 common shares valued at \$22,500.
